

emma SYSTEMS

AI you can trust

Smarter customs and compliance work, with your data in safe hands.

Emma uses AI where it makes everyday work easier: it reads, explains and suggests. You spend less time on routine work, and your IT department can be confident in how it is done.

What AI can do for you

Reads

Extract data from existing documents, including PDFs, to reduce typing and the risk of typing errors.

Explains

Understand findings faster, get guidance in plain language and focus on what needs your attention.

Suggests

Advice on classification, summaries of figures and suggested wording.

Your data is safe

Your data stays in Europe

All AI processing takes place within the EU/EEA.

AI with safeguards

We use trusted AI services with agreed security and data protection requirements.

No training by third parties

We do not share customer data with third parties to train their AI models.

Secure data boundaries

Your data is not shared with other customers.

People have the final say

The AI suggests. You decide.

Smart AI. Safe data.

Want to know more or activate AI? Contact your Emma representative or **support@emmasys.com**.

If Emma adds more AI providers, the same requirements for security and isolation will apply to them.
